The **icon Starter-Kit** (Part No. ICON-STARTER-KIT-00) is an easy and pleasant add-on for first-time buyers and customers who want to operate and program the icon actuator in a simple way and be able to make adjustments with the free downloadable software (CAS).

Starter-Kit contains the following:

1 x conXion Box+ (with buttons In/Out) incl. 1 m power cable w/one sided 2-pin Molex Minifit connector.

1 x Programming cable for icon actuator w/USB connection for PC.

1 x Hard copy of icon Starter-Kit, conXion-Installation Guide and icon-User Manual

Free downloadable CAS software:
Either scan the QR code or use the link to start download
https://www.concens.com/information/downloads/#software

ConXion Box/Box+ is delivered with 2 jumpers, but always place jumper(s) according to the below overview.

Note: For actuators with shielded cables, shields must be connected to power-ground at conXion end.

Further details:conXion Box/Box+/DIN Installation Guide: https://www.concens.com/information/downloads/#manual
